CROP PROGRESS AND CONDITION WEEK ENDING JUNE 21, 2015

AGRICULTURAL SUMMARY: Fieldwork progressed rapidly last week as conditions were ideal for accessibility. Crop development was spurred by an abundance of heat while condition ratings of most crops improved or held steady. Reporter comments indicate persisting fungal infections and drainage issues remain in several wheat fields throughout the northeastern district. Precipitation occurred in isolated fashion with the heaviest amounts concentrated in El Paso, Elbert, Teller, and Las Animas counties. Stored feed supplies were rated 2 percent very short, 5 percent short, 82 percent adequate, and 11 percent surplus. Sheep death loss was rated 63 percent average and 37 percent light. Cattle death loss was rated 1 percent heavy, 75 percent average, and 24 percent light.
